

PRESS RELEASE

PLANETCAST launches its own OTT platform

- Platform to offer services in B2B and B2C segment
- New OTT platform powered by two decades of broadcast industry leadership

Singapore, May 31, 2016: Planetcast Media services limited (formerly Essel Shyam Communication limited) today announced the launch of its own OTT platform. With the launch of its own OTT platform, Planetcast embarks on a adventurous journey of revolutionizing the digital broadcast industry globally, with its premium digital services.

The OTT offering is the newest addition in the bouquet of services offered by Planetcast for media and entertainment industry. Planetcast (OTT) will offer unlimited entertainment across all mobile devices and web portal. Planetcast (OTT) will offer non stop, full HD content in genres like Action, Drama, Bollywood, Hollywood, News, Kids entertainment and many more.

Commenting on the occasion, **Sanjay Duda, Chief Marketing Officer, PLANETCAST**

said “The launch of our OTT platform is in tandem with the future vision of the company. While we retain our core services, we are creating a whole new digital ecosystem which will be the backbone of the company for next decade, In short, we are creating tomorrow, today.

“PLANETCAST OTT has been specially designed to cater to the need of our existing customers. Our platform will help our customers to add a completely new dimension to their service offering.” he added

While OTT video is one of the fastest growing services on digital platforms, with everyone from traditional media companies to new-age media companies to telcos betting on online video consumption going mainstream.

On the demand side, there is a growing demand for flexibility in terms of type, timing, and place of content consumption. On the supply side, there are a multitude of OTT video services catering to different consumer preferences while declining prices of smartphone and improving mobile broadband infrastructure are removing roadblocks for OTT
